COVID-19 Testing Process

CDC Advice Simplified

Why are you getting tested?

SYMPTOMS

EXPOSURE

SYMPTOMS

NO SYMPTOMS

ISOLATION is recommended for all symptomatic patients who have been assessed and tested for possible COVID-19.

**CALL** your primary care provider, or 888-402-LVHN (5846), option 4, to obtain a script for testing.

DO YOU NEED TO QUARANTINE?:
- You are ages 18 or older and have received all recommended vaccine doses, including boosters and additional primary shots for some immunocompromised people.
- You are ages 5-17 years and completed the primary series of COVID-19 vaccines.
- You had confirmed COVID-19 within the last 90 days (you tested positive using a viral test).

Bring your **SCRIPT** to an LVHN Express Center for collection.

YES

You do not need to **QUARANTINE**.

Wear a mask around others and watch for the onset of symptoms for a full 10 days after exposure.

TEST ON DAY 5

NO

QUARANTINE for at least 5 days.

Wear mask around others for additional 5 days.

If unable to quarantine, wear a mask for 10 days.

If symptoms develop, refer to the left column for next steps.

If no symptoms or fever develop for 24 hours, **TEST ON DAY 5.**

POSITIVE Result

NEGATIVE Result

CALL your primary care provider, to obtain a script for testing.

ISOLATE for at least 5 days

RESUME daily life

Bring your **SCRIPT** to an HNL Lab Medicine PSC for collection.
